wanted to have a copy of distribution of work among the Sany Inspectors and whether the no. is sufficient or capable of reduction.

5 From the replies received, the Chiefs of District Boards have given information as to the work that is being entrusted to Sany. Inspectors in general, and not the work assigned to each. The formal reply from the Chief DBD Hassan is still due in the matter.

H 6 From the information put up in the linked file, it is seen that it is only the Bangalore District Board that has got Seven Sany Inspectors under it, while the Mysore DBD which has twelve Talukas under its control has only three Sany Inspectors while Tumkur has only one Inspector for ten Talukas. It is only very recently that four Sany Inspectors were sanctioned to the Tumkur DBD

The Hon Secy to Govt is away

7 The duties assigned to each Sany Inspector and to the Reserve Sany Inspector have not been stated.

8 The main reason put forward for increasing the number is that of combating epidemics and supervision of Vaccination, checking births & deaths

9 The DBD have sent up proposals for increasing the number of Vaccinators

NOTE—Contn. sheet

Serial No.

by fair and orders are awaited. The Vaccination work and checking the birth lists may well be satisfactorily attended to if the number of Vaccinators is increased.

10 Further, what the extra cost on this account would be and how the same will be met has not been stated.

The Bangalore DSB have recently revised the establishment under the DSB, revised the pay of caretakers, sent up proposals for increasing the number of Vaccinators, and the present proposal is to have more Savvy Inspectors, so there will be an additional demand under recurring charges.

12 In view of the replies received from all the Divisions of DSBs, it is a point for consideration, whether the strength of Savvy Inspectors may not be fixed once for all, for all the DSBs, consistent with the work each Board has to carry out.

13 The term of Village Panchayat Inspectors, who were formerly Savvy Inspectors and their work will be entrusted to New Inspectors, expires by the end of June 29. Their further employment is also a matter for consideration and orders.

15.1.29. The l/o. leading to the file is put up. The number of Savvy Inspectors in the Mysore Dist has been increased to eight

21/1/29.

NOTE—Contn. sheet

From

B. Mahomed Usmon, Esq., L. M. & S.,
~~Ag Ks Pan Ks Esq. X DR H. X Etc~~
Offg Sanitary Commissioner with the Government of
H. H. the Maharaja of Mysore, BANGALORE.

To

R. Ranga Rao, Esq., B.A., B.L.,
General Secretary to the Government of
His Highness the Maharaja of Mysore, BANGALORE.

Sir

I have the honour to forward herewith the letter No. A. 257-5566/28-29 dated 4/5th January 1929 received from the President, District Board, Bangalore in the matter of increasing the number of sanitary inspectors so as to provide each Taluk with one. I am in entire agrrement with him and would strongly support his reccommeddations. There cannot be effective work done without adequate staff, and there is ever so much to do, particularly in connection with epidemic ~~combat~~ control, improvement to water supplies, verification of vaccination and registration of Vital Statistics &c.

I have the honor to be

Sir,

Your most obedient servant,

Mahomed

SANITARY COMMISSIONER, M.C.

OFFICE OF THE PRESIDENT.
BANGALORE DISTRICT BOARD.

No. A.257-566/28-29.

Bangalore 4th January 1929

From

B. ABDUR RAHMON ESQ., B.A.,
PRESIDENT, DISTRICT BOARD,
BANGALORE.

To

R. Ranga Rao. Esq., B.A., B.L.,
General Secretary
to the Government of Mysore,
Bangalore.

(Through the Sanitary Commissioner in Mysore, Bangalore)

SIR,

Entertainment of one Sanitary Inspector for each Taluk in the District.

In forwarding herewith a copy of the resolution passed by the District Board at their meeting held on 1st. December 1928, I have the honor to state that the question of increasing the number of Sanitary Inspectors in the District has been animadverted upon by the District Board on more occasions than one. It has been found very difficult to cope with the work of two taluks by one Sanitary Inspector. For the ten taluks in the District there are at present seven hands (exclusive of a Reserve Sanitary Inspector who is attached to the office) and put in charge of seven circles as noted below:

Bangalore Taluk.	...	one circle.
Hosakote "	...	one "
Anekal "	...	one "
Magady & Nelamangala Taluks.		one "
Dodballapur & Devanahalli Taluks.		one "
Kankanhalli Taluk.	...	one "
Closepet & Chennapatna Taluks.		one "

2. The work of combating epidemics and supervision of vaccination in the circles which are comprised of two taluks as also supervision of works and checking of births and deaths etc. is suffering. The Taluks of Magadi and Closepet are hilly and at the same time very extensive. The Sanitary Inspectors of these circles especially, find

it - -

it very difficult to move about as freely as they ought to. The necessity for more hands has been explained in my previous letter, a copy of which is enclosed for reference.

3. The Deputy Sanitary Commissioner also who happened to tour in the District recommends the appointment of one Sanitary Inspector to each Taluk. A copy of his letter is enclosed for favour of information.

4. In the interests of the efficiency and public safety, I request you to kindly move Government to accord their kind sanction for the entertainment of three more Sanitary Inspectors, so that there may be a whole time hand for each of the ten taluks of the District.

I have the honor to be,
Sir,
Your most obedient Servant,

B. Rahmon

President, District Board,
Bangalore District.

a.s.

D.O. letter No.C.539-2/dated 13th December 1928 from the Deputy Sanitary Commissioner with the Government of Mysore, to the President, District Board, Bangalore.

=====

I have had opportunities recently of visiting most of the taluks of the Bangalore District. In the course of my itineration I found that the following items of work required urgent attention.

1. Propaganda work.
2. Dealing with epidemics.
3. Routine inspection of sanitary condition of villages with suggestions for improvement with particular reference to water supplies and latrine system.
4. Detailed verification of vaccination.
5. Checking of births and deaths.

Unless a whole-time hand for each Taluk is posted for the above work, no progress could be made. The vaccinators, I found were without adequate control owing to one Inspector having to be in charge of two taluks with four or more vaccinators. During Epidemics, work is delayed or deferred, as the areas now allocated are more than what one man could manage.

For these and various other reasons, I think it is very desirable that in the Bangalore District, an efficient Sanitary Establishment should be maintained by the District Board; and for this purpose, at least for the present, one Sanitary Inspector may be employed for each taluk.

I learn from the District Medical and Sanitary Officer that the District Board has enhanced the vaccination staff. This is indeed a very right step. And with more vigorous supervision which would become possible with a large staff of Sanitary Inspectors, I have no doubt, that the District Board would be able to show a clean small-pox record from year to year.

I hope that my suggestions to increase the Sanitary Inspectors providing one at least for each taluk, will receive favourable consideration by the Board.

as

Letter No: 525/26-27 dated 27th May 1927 from the President, District Board, Bangalore, to the General Secretary to Government, through the Deputy Commissioner, Bangalore.

I have the honor to state that in accordance with Government Order No: L.3059-124/L.B: 25-26-14 dated 12th December 1926 and Government Order No. L. 5210-25/L.B. 119-26-17 dated 31st. January 1926, the question of entertainment of staff was considered by the present District Board at their meeting held on the 28th February 1927. The matter was considered at length, all aspects of the case discussed having due regard to the volume of work now on hand and devolved on the Board under the Regulation and the practical difficulties of the scheme suggested by the former Finance Committee and along with the financial side of the scheme, and the Board were unanimously of the opinion that the District Board should entertain the services of a Sanitary Inspector for each Taluk and a Reserve Inspector in the District Board Office for the efficient discharge of duties devolved on the District Board. A copy of their resolution is herewith attached.

2. The duties devolved on the District Board is onerous. Now that the Taluk Boards are abolished, there is no agency in the Taluk to work out their schemes or to carry out their orders. Practical experience goes to prove that the present arrangement of having one executive subordinate for two taluks is not workable, as the attention of these subordinates is divided and neither of the Taluks will have the benefit of their presence. Besides it is a physical impossibility for a single person to attend to works of both Taluks simultaneously. Much of their time will be spent away in travelling from Taluk to Taluk, so much so, at times they may be absent in both the Taluks.

3. The fact that the District Boards are deprived of the

income from Mohatarfa will not effect their resources as hereafter under the statue the entire income (i.e.,76%) of the cess on Land Revenue will revert to the District Board, which will be about double the income realisable from Mohatarfa tax. Besides there are other sources of income such as Fees from shandies, Interest on Investments, etc. etc; as such there will be no financial embarassment for the entertainment of the staff now proposed by the District Board and for meeting the incidental expenditure for works of public utility.

4. Creation of facilities for communication, execution of works of public utility are some of the primary duties of the District Board. I may bring to the notice of government that there has been clamour from parts of all Taluks for the formation of inter roads and roads to link Taluks. There is much to be done in this direction. I am of opinion that any District Board will be failing in its duties if at least some roads (though not pakka) are not given in the rural areas. Various proposals are being brought forward for the formation of inter roads. To carry out the instructions of the Board, to get estimates and plans and to get the works executed in time and also to study the local conditions of each Taluk it is absolutely necessary that the Board should have an executive assistant under it in each Taluk.

5. Secondly about the supervision and control over Vaccinators' work, to arrest the spread of small pox. This is a very important duty and constant check supervision over the work of vaccinators is absolutely necessary to bring home to them the importance and necessity of earnest and systematic work. Instances have come to notice of their derilictions of duty even while working under Taluk Boards, much more so, when there is no controlling agency

at all in Taluks. It is of utmost vital importance that there should be a Sanitary Inspector in each Taluk not only to closely supervise their work but also to carry on vaccination work himself in cases of necessity to prevent the spread of small-pox.

6. Under Section 45 Clause (f) control and sanitation during jatras is one of the obligatory duties of District Board. Usually jatras are held simultaneously or at intervals of two or three days in most of the Taluks. So it is next to impossibility for a single man to attend to the required duties in two or three places simultaneously and no good work could be expected also.

7. Effective precautionary measures to arrest the spread of epidemics forms another important duty. There are and may be instances in which epidemics break out in both the Taluks simultaneously. At such time one Sanitary Inspector will not be able to cope with the work or do any useful business in both Taluks as his attention will be divided.

8. Under the above circumstances, the District Board have considered it necessary to entertain an executive subordinate helped by a clerk and a peon in each taluk to successfully carry out the duties and the instructions of the Board, along with a Sanitary Inspector in the District Board office as a reserve to act in casual vacancies and also to check measurements, scrutinize the estimates and bills of different Taluks.

9. The former District Board and Taluk Boards were entertaining 12 Sanitary Inspectors, 10 attendars, 12 peons and 10 clerks, where as existing Board have resolved to entertain 11 Sanitary Inspectors and 10 attendars and 11 peons under them instead of seven Sanitary Inspectors, seven peons and six attendars as suggested by the Finance Committee and approved

by Government.

10. The entertainment of one Sanitary Inspector for two Taluks will entail in more expenditure in the matter of Travelling allowance, as these have to ordinarily travel between two Taluks sometimes and more so, during the outbreak of epidemics and supervision of works during the latter part of the official year. Thus there may be a heavy expense by way of Travelling allowance and mileage and the same may be considerably minimised if there is one man for each Taluk.

11. In the interest and efficiency of the District Board work and from my experience of the past four years, I strongly commend the resolution of the District Board to Government and request you to be good enough to kindly move Government to accord their sanction to the proposal of the District Board.

Proceedings of the Government of His Highness

the Maharaja of Mysore.

R e a d :-

Letter No.C.217/L.B.28-29 dated 4th August 1923, from the President, District Board, Mysore, forwarding for sanction a copy of the resolution of the Board to increase the strength of Sanitary Inspectors from 3 to 8.

ORDER - NO. L.1770-87/L.B.11-28-3

Dated, Bangalore, the 24th / 25th August 1928.

It is stated that the District Board of Mysore have, at present 3 Sanitary Inspectors with jurisdiction over not less than four Taluks each; that on account of the abolition of the Taluk Boards and the introduction of the Melnad Improvement Scheme into the Hunsur and Heggadavanakote Taluks, the duties to be performed by the Sanitary Inspectors have increased and that it has not been possible for these Sanitary Inspectors to attend to the several works satisfactorily. The District Board have therefore resolved that the strength of the Sanitary Inspectors might be increased by the appointment of one Sanitary Inspector for two Taluks and one Reserve Sanitary Inspector (total eight) their head quarters being settled after the appointments are sanctioned and the Sanitary Inspectors being required to work under the direct orders of the President and Vice President. The resolution of the District Board is approved.

It is proposed by the President that the scale of pay in the new posts will be in accordance with that fixed in Government Order No.R.16474-95/M1.184-16-123 dated 24th June 1919 sanctioning the revision of the scale of pay and prospects of the Sanitary Inspectors and that each Sanitary Inspector will be given a conveyance allowance of Rs.25/- per mensem.

As regards the pay to be given to the Sabitary Inspectors, the attention of the President will be invited to Government Order No.L 2395-416/L.B.11-21-11 dated 24th October 1921 allowing local bodi

to give the benefit of the high price allowance to their full time amounts. The pay of the Sanitary Inspectors will have to be regulated by the Government Order of June 1919 and the High Price allowances order. The Sanitary Inspectors may be given a pony allowance of Rs.25/- per mensem.

The President also states that some of the Sanitary Inspectors who are now Village Panchayet Inspectors will be selected and reabsrobed in the above appointments. This is also approved

In view of the recommendation of the Revenue Commissioner that the appointment of Village Panchayet Inspectors may be abolished and that their work may be assigned to the Revenue Inspectors from the beginning of the year 1929-30. (Vide Government Order No.L.711-29/V.P.63-27-5 dated 21/24th July 1928), the Presidents of District Boards are requested to see that places of Sanitary Inspectors are as far as possible reserved for such of the Sanitary Inspectors as have been appointed as Panchayet Inspectors and who may be disturbed on the abolition of Village Panchayet Inspectors after 1928-29.

GENERAL AND REVENUE DEPARTMENTS.

G. O. No. L. 5210-25—L. B. 119-26-17, dated 31st January 1927.

Village Panchayet Inspectors.

Issues instructions in *re* discharge of Sanitary Inspectors under the old District and Taluk Boards and their employment as ——.

ORDER NO. L. 5210-25—L. B. 119-26-17, DATED 31ST JANUARY 1927.

FROM

B. NAGAPPA, ESQ., BAR.-AT-LAW.,
Secretary to the Government of His Highness the Maharaja of Mysore, Local and Legislative Departments,
BANGALORE.

To

The Deputy Commissioners of Districts.
The Presidents of District Boards of Bangalore, Hassan and Kolar.
The other Presidents of District Boards.

SIR,

In Government Order No. L. 3059-1124—L. B. 25-26-14, dated the 12th November 1926, the District Boards were asked to fix the minimum staff that would be required for the new District Boards out of the establishment of the existing District Boards and Taluk Boards to be abolished, to take timely steps as regards giving notice, etc., to the officials to be discharged and to submit lists to Deputy Commissioners of persons to be discharged for their employment as Panchayet Inspectors and Taluk clerks in connection with the Village Panchayet Schemes.

In Government Order No. L. 3686-704—L. B. 119-26-1, dated 18—20th December 1926, Government have sanctioned the appointment of an Inspector of Panchayets for each of the Taluks on Rs. 60 per mensem to assist the Amildars in their powers of inspection, etc., with a horse allowance of Rs. 15 per mensem besides, a clerk on Rs. 30 per mensem in the case of Taluks and Rs. 20 per mensem in the case of Sub-Taluks from 1st February to 30th June 1927 and stated that in appointing persons to the above posts, the Deputy Commissioners will utilise the services of qualified Sanitary Inspectors and clerks to be thrown out consequent on the abolition of the Taluk Boards and curtailment of the District Board Establishments.

Various proposals have been received in the matter of discharge of Sanitary Inspectors and their employment as Panchayet Inspectors in the several Districts.

The following matters require immediate attention in this connection.

(1) It is necessary that District Boards whose finances have been curtailed on account of their ceasing to have the benefit of the Mohatarfa tax, should have only as few Sanitary Inspectors as are essential for performing the functions devolving on the Boards under the New Regulation. It is found that in some Districts only two Inspectors have been retained, while in others 5 and 6 have been retained. The action taken in this behalf by the expiring District Board has to be ratified or modified by the new District Board as early as possible, and in any case before the end of February. It is suggested that only two or three are retained ; and if more are necessary, their duties should be clearly indicated for enabling Government to pass orders in the matter.

(2) The Village Panchayets require Inspectors from the very beginning. It is the desire of Government that as many of the thrown out Sanitary Inspectors as possible are absorbed as Panchayet Inspectors. As the pay of these Inspectors has been fixed at Rs. 60+15, those getting a pay nearest to this emolument should be thrown out. It should be made clear that appointments are not guaranteed and that those who prove unequal to the task will be retired unless they could be absorbed in other vacancies. If Inspectors drawing a pay much above or much below 60 Rs. have been thrown out, they may be re-entertained and others discharged instead, in anticipation of sanction of the new District Board.

(3) It is necessary that all taluks should have Inspectors at once ; and only temporary appointments of Panchayet Inspectors may be made till the *full* number of Sanitary Inspectors become available after the new District Boards meet and decide as stated above. All appointments of Panchayet Inspectors should be treated as temporary as no permanent provision has yet been made in the State Budget for the purpose. The persons newly appointed as Panchayet Inspectors should be such as are able to check and supervise ordinary village works.

I have the honour to be,
Sir,
Your most obedient servant,

B. NAGAPPA,
Secretary to Government,
Local and Legislative Departments.
